## CAT CAGES & TABLES

### Triple Height Cat Shack

- An attractive and economical option for cat hospitalization.
- A single shack construction and powder coated for hygiene and durability.
- All 3 levels feature a built in cat crush where a false back can be pulled to the front of the cage.
- Dimensions: 1910H x 750W x 650D

**PROVET CODE:** CAGE C ST  
**\* IN STOCK**

**Castor Set for Cat Shack**  
**PROVET CODE:** CAGE C STP

### Double Height Supercat Cages

- Each has two shelves, one solid shelf and one mesh trampoline (removable).
- Roam alone door as a standard feature, allowing side access between cages.
- Removable middle to allow one large cage.
- Ventilation in bottom and top door.
- Dimensions: 1900H x 750W x 750D

**PROVET CODE:** CAGE S C D  
**\* IN STOCK**

**Castor Set for Supercat Cages**  
**PROVET CODE:** CAGE S C C

### Back Saver Examination Table

- Standard examination top 1100 x 600mm.
- Comfortable working level for all of your needs.
- Easy adjustable height to suit all patient sizes.

**PROVET CODE:** TABL E 2  
**\* IN STOCK**

### Standard Acrylic Top X-Ray Table

- This table allows movement of the cassette under the acrylic on a standard cassette holder. You can accurately place the x-ray because you can see through the acrylic top.
- Dimensions: 1400mm x 600mm x 860mm

**Without 4 x Wheels**  
**PROVET CODE:** XRAY T S2  
**\* IN STOCK**

**With 4 x Wheels**  
**PROVET CODE:** XRAY T S3

## TROLLEYS & DRIPS

### Instrument Trolleys

- Two shelves with rails.
- 50 x 50 x 90cm high – Stainless Steel

**PROVET CODE:**  
TROL I R  
**\* IN STOCK**

**Also available:**

- 50 x 50 x 90cm high – Powder Coated

**PROVET CODE:**  
TROL EI01

- 60 x 50 x 90cm high – Stainless Steel

**PROVET CODE:** INST T 21

- 60 x 50 x 90cm high – Powder Coated

**PROVET CODE:** TROL EI02

### Instrument Trolleys

- Single Draw.
- 50 x 50 x 90cm high – Stainless Steel.

**PROVET CODE:**  
TROL D E1\***IN STOCK**

**Also available:**

- 50 x 50 x 90cm high – Powder Coated

**PROVET CODE:**  
TROL D E2

- 60 x 50 x 90cm high – Stainless Steel

**PROVET CODE:**  
TROL E0460

- 60 x 50 x 90cm high – Powder Coated

**PROVET CODE:** TROL EI03

### Cage Mount Pump Support

This very versatile accessory allows you to place a drip stand and fluid pump as required when ever you need it. This provides an easily re-locatable fluid therapy station. Slips easily onto the cage door in seconds. I/V stand is adjustable. An essential tool in any facility, especially where floor space is limited.

**PROVET CODE:** DRIP CM 3  
**\* IN STOCK**

### Cage Mounted Drip Stand

- Simple, portable fluid management for any cage.

**PROVET CODE:** DRIP CM 2  
**\* IN STOCK**

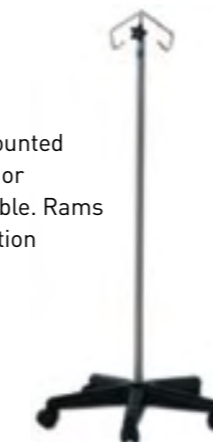

### Mobile IV Drip Stand

Comes with a drip stand head mounted on a 5 leg base. Heavy alloy base or lightweight 5kg nylon base available. Rams head, 4 prong or outside hook option

**NYLON BASE**  
**PROVET CODE:** DRIP S 5  
**\* IN STOCK**

**ALLOY BASE –**  
**PROVET CODE:** DRIP S 6

## DIGITAL CAMERA & MONITORS

### DCM-130 Digital Eyepiece Camera

An inexpensive digital microscopy camera! The DCM-130A has been designed to work with all microscopes (compound and stereoscopic, student or laboratory). It is simply inserted directly in the

microscope's eye tube or phototube, producing crisp, colour images on your PC or laptop.

- 1.3mp; resolution up to 1280 x 1024 pixels.
- Sensor: 1/2" colour CMOS.
- Video frame rate: up to 20 frames/second @ 1280x1024 (depending on PC).
- USB2.0 interface.
- Includes driver (which supports DShow and TWAIN interface) and SCOPEPHOTO software for image capture, archiving, filtering and measuring.
- File format: BMP, TIFF, JPG, PICT, PTL.
- Exposure: automatic.
- Shutter control: automatic/manual.
- Programmable controls: gain, frame rate, frame size.
- Photoshop plug-in.
- Eyepiece camera body has microscope connection diameter of 23mm for compound microscopes; also includes adaptor 30mm and 30.5mm for stereomicroscopes.
- Eyepiece camera size: 110mm (H) x 55mm (D).
- Cable length 150cm.
- Minimum computer requirements: Intel Pentium III 1G Mhz processor; Windows 2000/XP (Vista driver coming soon); 256mb RAM; CD-Rom drive; 16-bit colour display monitor or higher; available USB2 port.

**PROVET CODE:** MICR D 01 \$315.00 (PRICE EXL GST)

### VET420A Veterinary Monitor

**Features include:**

- 7" colour display.
- 4-channel waveform display.
- 2-channel ECG real-time display.
- 600-set blood pressure data storage and recall.
- 48-hour trend of SpO2/PR/RESP/HR/TEMP1/TEMP2.
- Apnea alarm function.
- Central station networking interface.
- Internal rechargeable battery.
- External thermal recorder (optional).
- ECG, NIBP, SpO2, TEMP, RESP.

**PROVET CODE:** (MONITOR): MONI V420A  
(PRINTER): PRIN V400A

### VET420F Veterinary Monitor

**Features include:**

- 12." colour TFT display.
- ST segment.
- Maximum 8 channel waveform display.
- 600-group vital sign data recall.
- 4-channel ECG waveform and enlarged waveform display.
- 120-hour graphic and tabular trend information.
- 12-minute ECG waveform storane and review.
- Optional cardiac output and multi-gas monitoring.
- Network capability.
- ECG/ST, NIBP, SpO2, CO2, TEMP, RESP, IBP.

**PROVET CODE:** (MONITOR) : MONI V420F  
(PRINTER): PRIN V420F

## E-PROBE

### Goldway Esophageal Probe (E-probe)

The Esophageal Probe (E-Probe) has been developed for monitoring cardiac function, respiratory activity and body temperature for doctors and technicians of veterinary medicine. The E-probe provides added flexibility for its practitioners by allowing them to simplify the method in which the required parameters are gathered.

**The E-probe serves three functions:**

- Monitors ECG and heart rate.
- Monitors respiration rate.
- Monitors body temperature.

**The benefits of using this probe are many:**

- Convenience.
- Time saving.
- Anchors and secures sensors and probes.
- Simplifies the management of multiple cables.

When the probe is applied with knowledge and skill, the practitioner will find the E-probe dramatically increases their efficiency and productivity, while maintaining the life signs of their patient.

**The E-probe comes in two different sizes:**

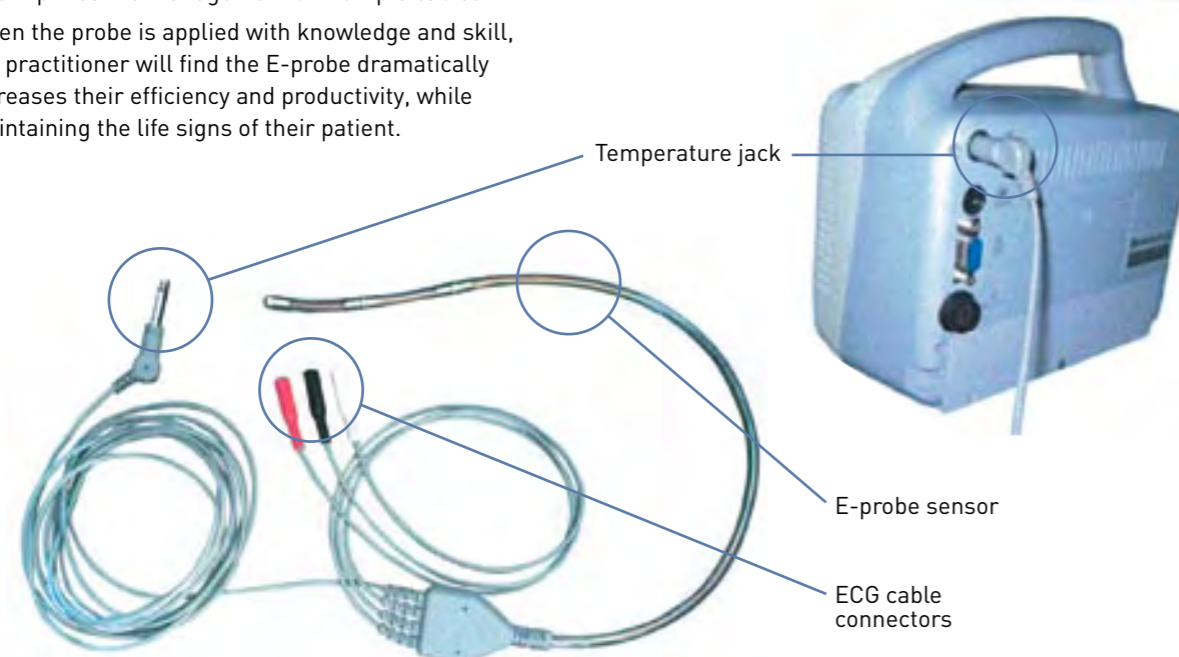

- Small.
- Large.

The probe has been designed for the Goldway series of multiparameter monitors and connects seamlessly to their units. However, the universal connector allows connection to most vital signs monitors used today.

- The small E-probe should be applied to patients under 30 lbs.
- The large E-probe should be applied to patients over 30 lbs.

The above are only general guidelines and individual results may vary depending on the animal, breed and morphology.

**PROVET CODE:** MONI V 01, MONI V 02

## INSTRUMENTS

### Heine Exam Light HL5000 (Mobile)

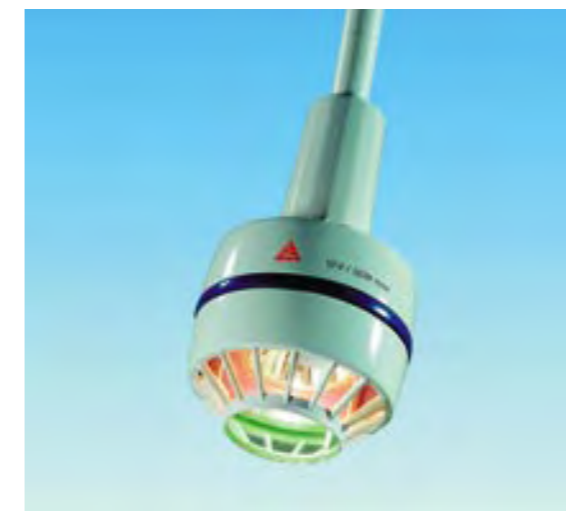

With a light output of 140000 Lux at a distance of 30cm this examination light is ideal for examining and recognising small details.

The flexible gooseneck construction provides a working radius of 120cm.

**Features:**

- Long-lasting 12V/50W halogen bulb gives 140000 lux light output at 30cm – Very bright, white light.
- Extremely compact illumination-head– No obstruction of view, ease of handling.
- Halogen bulb lasts at least 4000 hours – Economical.
- Additional UV filter – Increased safety during examination.
- Solid construction with high-specification 120cm radius gooseneck design – Super-wide radius of operation, easy to position, light stays put in any selected position.
- Additional IR-Filter reduces heat – More comfort for the patient and examiner.

**PROVET CODE:** EXAM L H2  
**PRICE EX GST:** \$1,198.00 (PRICE GST)

### iM3 Purr-fect Feline Instruments

### Feline 8 Piece Hand Instrument Kit

The feline/small dog periodontal kit has been designed exclusively for use in cats and small dogs. It's design allows the practitioner to perform a complete oral examination (including detection of feline resorptive lesions) and cleaning of all tooth surface – both supra and subgingivally (above and below the gum). All instruments are available individually.

**PROVET CODE:** D2000 Feline 8pc Hand Instrument Kit.  
**PRICE EX GST:** \$315.59

### 1mm & 2mm Elevators

1mm and 2mm wide straight tip elevator.

**PROVET CODE:** DENT D2001 Elevator 1mm  
**PRICE EX GST:** \$49.89

**PROVET CODE:** DENT D2002 Elevator 2mm  
**PRICE EX GST:** \$49.89
